INTERNSHIPS

Data Analytics Intern | Novitech Learning

- Gained practical, hands-on experience applying core data analytics methodologies and frameworks to enterprise-level datasets.
- Upskilling: Currently executing curriculum within a Machine Learning Bootcamp, establishing proficiency in Artificial Intelligence and Deep Learning basics.

PROJECTS

Retail Sales Data Analytics Project

Tools Used: **Excel, SQL, Python, Power BI, Tableau**

- Ingested, structured, and cleaned complex retail transactional datasets to establish absolute data integrity and consistency.
- Executed deep-dive SQL-based business analysis to isolate high-performing products, seasonal trends, and key revenue metrics.
- Designed and engineered interactive, automated dashboards in Power BI and Tableau to visually deliver KPIs to stakeholders.

- Conducted multi-variable customer trend and operational sales performance analyses utilizing localized Excel frameworks and advanced Python statistical libraries (Pandas, NumPy, Matplotlib).

LEADERSHIP EXPERIENCE

College Chairperson | Women's Christian College, Nagercoil (*Tenure: 2023 – 2024*)

- Successfully planned and coordinated over 5 major, large-scale institutional events while overseeing daily activities for a student body of 1,000+ individuals.
- Served as the executive point of contact, managing professional and sensitive communication channels between 50+ faculty members and the student administration.
